Di

Tempat

Dalam rangka peningkatan kerjasama dalam bidang riset dan pendidikan, Fakultas Kedokteran Hewan Institut Pertanian Bogor (FKH IPB) berencana menyelenggarakan simposium internasional secara virtual *Association of Japan-Indonesia Veterinary Education (AJIVE)* yang bekerjasama dengan 11 Fakultas Kedokteran Hewan di Indonesia dan 5 Fakultas Kedokteran Hewan di beberapa universitas di Jepang (Yamaguchi University, Kagoshima University, Tottori University, Gifu University dan Miyazaki University), yang akan diselenggarakan pada 13 Februari 2021 secara virtual. Sehubungan dengan hal tersebut, maka bersama ini kami sampaikan *2nd Announcement of AJIVE "The 5th International Symposium on Veterinary Science"* (terlampir).

Kami mohon untuk dapat menyebarluaskan kembali informasi kegiatan tersebut ke seluruh staf pengajar maupun mahasiswa di Fakultas Kedokteran Hewan yang Bapak/Ibu pimpin.

Demikian kami sampaikan, atas perhatian dan kerjasamanya diucapkan terima kasih.

Ketua AFKHI,

Prof. Drh. Srihadi Agungpriyono Ph.D., PAVet (K)

2nd Announcement

The 5th International Symposium on Veterinary Science

“Strengthening the Collaboration in Education
and Research between Indonesia and Japan
Veterinary Schools”

February 13th, 2021

**FREE
OF CHARGE**

* Certificates are provided with CPD credit points (SKPB)

2021

ASSOCIATION OF
JAPAN-INDONESIA
VETERINARY EDUCATION (AJIVE)

Topics of Dean Presentation

- Faculty or institution research priority
- Possibility of collaborations on education and/ or research
- Policy of “Merdeka Belajar” and its related to education system in Indonesia
- Scholarship and students exchange programs

Important dates

Registration & abstract submission	November 24 th , 2020 - January 22 th , 2021
Full paper submission deadline*	February 1 st , 2021
Upload the pre-recorded video presentation	February 1 st , 2021
Conference day	February 13 th , 2021
Registration Link	http://bit.ly/RegistrationformAJIVE2021

*Only for Participants would like to publish their article in journal of ACTA Vet Indones (Accredited Sinta 2) or ARSHI Vet let

Oral Presentation

- The oral presentation will be using a pre-recorded video presentation (Example of Video Can be Download [here](#)).
- Pre-recorded video presentation maximum is 8 minutes (Maximun 100 MB)
- Pre-recorded video can be delivered to link <http://bit.ly/VideoSubmitAJIVE2021>

PT. MEGA UTAMA MEDICA

THE 5TH SYMPOSIUM

ASSOCIATION of JAPAN-INDONESIA VETERINARY EDUCATION 2021

HOSTED by

IPB University

Welcome Message from President of Indonesian Association of Veterinary School (IAVS)

Srihadi Agungpriyono
Dean
Faculty of Veterinary Medicine, IPB University

Faculty of Veterinary Medicine IPB University is proud to become the host of the 5th International symposium in veterinary science. This symposium is annual meeting that initiated, firstly in Bogor, IPB University.

In this symposium we invite deans and faculty members from 16 universities as follows: Joint Graduate School of Veterinary Medicine, Yamaguchi University; Joint Graduate School of Veterinary Medicine, Kagoshima University; Joint Graduate School of Veterinary Sciences, Tottori University; Joint Graduate School of Veterinary Sciences, Gifu University; Graduate School of Medicine and Veterinary Medicine, Miyazaki University; IPB University; Gadjah Mada University; Airlangga University; Udayana University; Syiah Kuala University; Hasanuddin University; Nusa Cendana University; Brawijaya University; Wijaya Kusuma University; University of Pendidikan Mandalika; and Padjadjaran University.

Recent advances in veterinary research and education would be discussed in this symposium. Every faculty representative would present their leading activities in research and its contribution to educational improvements in terms of standardization system. During the discussion, we could do institutional capacity mapping as a fundamental base for the future excellent veterinary graduates.

We sincerely hope that from this symposium give a positive impact for every institution. We also hope to develop more mutual collaboration in the future. Thank you, have a nice discussion.

Welcome Message from Dean of Joint Graduate School of Veterinary Medicine, Yamaguchi University

Koichi Sato

Dean

Joint Faculty of Veterinary Medicine, Yamaguchi University

Dear colleagues in Indonesia and Japan.

I am very pleased to be able to convey my message to you at the 5th AJIVE symposium. Japanese veterinarian and Indonesian veterinarian have had a long and strong relationship through the United Graduate School of Veterinary Sciences Joint Graduate School of Veterinary Medicine, Yamaguchi University. Based on our relationship, we established AJIVE (Association of Japan-Indonesia Veterinary Education) in 2018. The mission of AJIVE is to cultivate the international educational researchers/teachers of veterinary medicine, to develop the program to the standard of Asia veterinary education based on the international educational system, to enhance the international veterinary educational research enforcement system.

At the last symposium in Bali, I wrote the following message, “Recently, there are many threats in the veterinary fields, such as the shortage of animal protein due to population growth, and an increase in transboundary/zoonotic diseases in Asia. To face these great threats, we should develop our veterinary education and research.” Unfortunately, after the last symposium, the threat has become true. COVID-19 has spread all over the world, including Indonesia and Japan. Under these circumstances, I think that the great efforts of a veterinarian are required by human society. We, veterinarians, should do our best for the safety and health of the human race.

This time, we will hold a web-style AJIVE symposium. This style is good for us, because anyone who wants to attend this symposium can join and discuss with us.

I believe this symposium becomes a big step on the road to the fruitful collaboration between universities in Indonesia and Japan.

THE HISTORY OF AJIVE

Figure 1. The 1st AJIVE symposium in IPB University in 2017

Recently, there are many threats in the veterinary fields, such as the shortage of animal protein due to population growth, and an increase in trans-boundary/zoonotic diseases in Asia. Therefore, to face these significant threats, we should develop our veterinary education, research, and technology.

Fortunately, Japanese veterinarians and Indonesian veterinarians have a long relationship. Faculty of Veterinary Medicine, IPB University with the Joint Graduate School of Veterinary Sciences, Yamaguchi University initiated to develop education and research program. The mission of this collaboration is to cultivate the international educational researchers/teachers of veterinary medicine, to develop the program to the standard of Asian veterinary education based on the international educational system, and to enhance the international veterinary educational research enforcement system. After that, these initiators invited other universities in both Indonesia and Japan to make the collaboration to be bigger.

The international symposium in veterinary science between Indonesian and Japanese veterinary school has established since 2017, which initiated by 8 Faculties of Veterinary Medicine:

1. Joint Graduate School of Veterinary Medicine, Yamaguchi University, Japan
2. Joint Graduate School of Veterinary Medicine, Kagoshima University, Japan
3. Joint Graduate School of Veterinary Sciences, Tottori University, Japan
4. Faculty of Veterinary Medicine, IPB University, Indonesia
5. Faculty of Veterinary Medicine, Gadjah Mada University, Indonesia
6. Faculty of Veterinary Medicine, Airlangga University, Indonesia
7. Faculty of Veterinary Medicine, Syiah Kuala University, Indonesia
8. Faculty of Veterinary Medicine, Udayana University, Indonesia

In 2018, this association was considered essential, and finally, a decision has made to establish an association with activities that expected continuity. The association has renamed as “**Association of Japan and Indonesia Veterinary Education (AJIVE)**”.

Since its founding, AJIVE has held the international symposium every year, hosted by the respective Faculty of Veterinary Medicine in Indonesia. Previously, the 1st symposium (2017) in IPB University, Bogor; the 2nd symposium (2018) in Gadjah Mada University, Yogyakarta; the 3rd symposium (2019) in Airlangga University, Surabaya and the 4th (2020) in Udayana University.

Figure 2. Inauguration of AJIVE in Japan, 2018

Besides, the AJIVE members also increased with to 11 Faculties of Veterinary Medicine from Indonesia and 5 Faculties of Veterinary Medicine from Japan:

9. Joint Graduate School of Veterinary Sciences, Gifu University, Japan
10. Graduate School of Medicine and Veterinary Medicine, Miyazaki University, Japan
11. Faculty of Veterinary Medicine, Brawijaya University, Indonesia
12. Faculty of Veterinary Medicine, Nusa Cendana University, Indonesia
13. Faculty of Veterinary Medicine, Hasanuddin University, Indonesia
14. Faculty of Veterinary Medicine, Padjadjaran University, Indonesia
15. Study Program of Veterinary Medicine, Wijaya Kusuma University, Indonesia
16. Study Program of Veterinary Medicine, University of Pendidikan Mandalika, Indonesia

Due to the outbreak of COVID-19, the 5th AJIVE event will be held virtually by IPB University to maintain the continuity of this event. The 5th AJIVE virtual symposium has a theme: “Strengthening the Collaboration in Education and Research between Indonesian and Japanese Veterinary School”. This symposium will share the recent advances in veterinary research and technology. Besides, possible collaboration in educational improvements in terms of the standardization system, as well as in-depth research activities, will be discussed. We are sure that new networking and collaboration will be established among us, which will strengthen the future excellent veterinary education, research, and technology for Indonesia, Japan and the world.

GENERAL INFORMATION

1. The seminar will be held virtually using Zoom app and StreamYard with an ID. The ID will be sent to all participants via email.
2. Participants are required to register via the link form: <http://bit.ly/RegistrationformAJIVE2021>
3. Participants should be joining since main seminar begin using a verified email account. Please complete the registration form first
4. When sign in, participants should make an account name with following: room code-complete name.
5. Participants are prohibited from spreading the ID and password Zoom.
6. Participants will be divided into separated rooms. The separation will be determined by committee.

TERMS OF REFERENCE (TOR)

Title

The 5th International Symposium of Association of Japan and Indonesia Veterinary Education (AJIVE) 2021

Background

International symposium in veterinary science between Indonesian and Japanese veterinary schools has already established since 2017. Previously, the 1st symposium (2017) in IPB University, Bogor; the 2nd symposium (2018) in Universitas Gadjah Mada, Yogyakarta; the 3rd symposium (2019) in Airlangga University, Surabaya and the 4th (2020) in Udayana University.

Due to the outbreak of COVID-19, the 5th AJIVE event will be held virtually by IPB University to maintain the continuity of this event. The 5th AJIVE virtual symposium has a theme: Strengthening the Collaboration in Education and Research between Indonesian and Japanese Veterinary School. The symposium will be attended by Deans and representatives Joint Graduate School of Veterinary Medicine, Yamaguchi University; Joint Graduate School of Veterinary Medicine, Kagoshima University; Joint Graduate School of Veterinary Sciences, Tottori University; Joint Graduate School of Veterinary Sciences, Gifu University; Graduate School of Medicine and Veterinary Medicine, Miyazaki University. Deans and representatives from 11 Faculties of Veterinary Medicine (FVM) in Indonesia will attend the symposium (IPB University, Gadjah Mada University, Airlangga University, Syiah Kuala University, Udayana University, Hasanuddin University, Nusa Cendana University, Brawijaya University, Wijaya Kusuma University, University of Pendidikan Mandalika, and Padjadjaran University.

Recent advances in veterinary research and technology will be shared in this symposium. In addition, possible collaboration in educational improvements in term of the standardization system, as well as deep research activities, will be discussed. We are sure that new networking and collaboration will be established among them which will strengthen the future excellent veterinary education.

INSTRUCTION FOR AUTHORS

A. ABSTRACT

All papers (oral or poster) are to be submitted as **ABSTRACT** with the general format as follows :

PAPER SIZE : A4 (21 cm x 29.7 cm)

MARGINS : 2 cm top and bottom, 2,5 cm on sides.

TITLE : 12 pt **Calibri**, **CENTRED** and in **BOLD CAPITAL LETTERS**.

AUTHOR(S) / AFFILIATION / EMAIL : One blank line after the title shall be the initials and surname of the authors(s) in 10 pt Calibri, centred and in Bold Capitals. Follow by the name of the institution where the work was done in 10 pt Calibri and centred. The email address of the corresponding author indicated with the asterisk symbol (*).

KEYWORD : a maximum of 5 keywords below the abstract.

B. FULL PAPER

Suggestion format for full paper:

Abstract	: Short overview of the study.
Introduction	: Background of the study.
Objective	: The aim/goal of the study
Method	: Techniques used in the study to achieve the objective.
Results	: A brief overview of the results with evidence to confirm the findings.
Discussion	: Interpretation the meaning of the results and its possible implications or improvements in other areas of study.
Conclusions	: A summary of the study and implications.
References	
Acknowledgement	

Note:

The template for abstract and full paper (can be seen in page 15)

Participant has opportunity to submit of full paper and the selected papers will obtain a notification from the committee to submit of the papers for consideration of publication in the following journals:

1. Acta Veterinaria Indonesiana (National Journal accredited Sinta 2)
: <https://journal.ipb.ac.id/index.php/actavetindones/index>

2. ARSHI Veterinary Letters (National Journal)
: <https://journal.ipb.ac.id/index.php/arshivetlett>

The selected paper that will publish in journal will get discount for submission fee 50% for both Acta Veterinaria Indonesiana and ARSHI Veterinary Letters Journals, respectively.

C. ORAL PRESENTATION

The oral presentation will be using a pre-recorded video presentation. All speaker presentations can enter into the program as simulated live talks. Hence, all attendees will watch each pre-recorded talk as if being broadcast live. Pre-recorded video presentation maximum is 8 minutes to deliver their presentation and followed by discussion (Q&A). Each parallel class will have a moderator, with one or more committee members in attendance (Schedule at a glance). The presenter is the first or co-author of the article. (Video file can be download [here](#)). Link for uploaded video: <http://bit.ly/VideoSubmitAJIVE2021>

D. SUBMISSION

All abstracts and oral presentations are to be submitted electronically to ajive.2021@gmail.com. For more information about the abstract submissions, please communicate through the email above.

For further information, please contact the Organizing Committee of the 5th International Symposium of Association of Japan-Indonesia Veterinary Education (AJIVE).
